

My Helper

I lift up my eyes to the hills O Lord
I do know where my help comes from, from your throne
You made the heavens and the earth O Lord
No other god could ever ever do what you do all is good

Chorus

/You will not let my feet slip away
You always watch over me
Indeed you care for your people
You'll neither slumber nor sleep/

The Lord sustains a shield at my right hand
The sun will not burn me during the day
Nor the moon can harm at night
The Sovereign Lord is my shield and strength
You make my weaken feet feel light and free
You enable me to go up high

Chorus

You keep me up onto the highest place
Surely you care for me
The Lord is by my side day and night
Surely you care for me
